

## Looking for families to open their home for a child from Ukraine.

We are inviting you to welcome a child from a Ukrainian orphanage to spend their summer vacation with your loving family, with the possibility of a permanent adoption.

Dear Family:

We would like to invite Ukrainian orphan children to come from their orphanages in Ukraine to visit the United States. The children would arrive around the third week of June, 2009 and return around the third week in July, 2009. The children would return by the date stated by the Ukrainian government.

Some ideas for this holiday could include different activities such as: going to museums, parks, social gatherings, swimming, fireworks, and attending religious activities. We are hopeful that this will be fun and the children will enjoy an enriching educational and cultural experience in the United States. Transportation to outings and the cost of these events will be provided for the children by the host American family. Your family will get an opportunity to bond with these children and possibly welcome them permanently into your loving family. All of the children are available for permanent adoption.

We believe this would be a great opportunity for the children to travel internationally and to learn about the United States of America within a safe, comfortable, loving setting with Ukrainian / American families. If you are interested in being a part of this great experience please contact me at 716-597-7026.

Thank you for your consideration,

Alexandra Savka
